

Mukhtar Moosa

Full Stack Developer

Turbat 03162159011 mukhtarmosadev@gmail.com

PROFILE

I'm an AI & Full-Stack Developer passionate about turning ideas into practical, intelligent digital solutions. I combine Python, AI/ML, Generative AI, RAG, and modern web technologies to build useful applications while continuously learning and solving real-world problems. AI & Full-Stack Developer with hands-on experience building AI-powered applications, RAG solutions, automation workflows, and modern web applications. Skilled in Python, AI/ML, Generative AI, full-stack development, databases, JavaScript/TypeScript, React, and Next.js. Also experienced in Advanced Excel, Microsoft Office, data entry, 45 WPM typing, and professional document and book formatting. Motivated by turning ideas into practical digital solutions and continuously developing new technical skills.

ACCOMPLISHMENTS

- Developed AI-powered applications using Python, Generative AI, and RAG technologies.
- Built full-stack web applications using React, Next.js, TypeScript, and modern development tools.
- Created practical software solutions involving databases, automation, and AI technologies.
- Achieved a typing speed of 45 WPM with strong accuracy.
- Developed advanced proficiency in Microsoft Excel and professional document and book formatting.

WORK EXPERIENCE

AI & Full-Stack Developer

Self-Employed — Turbat

Developing intelligent and practical web applications by combining AI/ML technologies with modern full-stack development. Building AI-powered solutions, RAG-based applications, automation tools, and responsive web interfaces while focusing on clean, scalable, and user-friendly experiences.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

University of Turbat, Turbat

Currently pursuing a Bachelor's degree in Computer Science at the University of Turbat, with a strong focus on AI, machine learning, software development, databases, and modern web technologies. Building practical skills through academic projects, hands-on development, and continuous learning.
